

WHITE GETS DECISION OVER JACKSON

New York, Feb. 20.—Charlie White, Chicago lightweight, tonight defeated Willie Jackson, of New York, receiving the judges' decision after their fifteen round bout in Madison Square Garden.

The left hook of the Chicagoan, slow to get to work, enabled him to floor the rough New York boy three times in the thirteenth round.

Jackson seemed due to take the count on the third knockdown but the bell saved him.

White was slow in the early rounds and Willie buffeted him about the ring with hard rights to the jaw and straight lefts to the chin. It was not until the fourth round that White found himself. He then staggered Jackson with a left hook to the jaw and drove him to his corner with a body attack.

Jackson won the first three rounds. White took the fourth. The fifth and sixth were even and all the others went to White. White weighed 135 pounds. Jackson 134 1/2.

Benny Leonard, lightweight champion, recently signed articles to be the winner of the match in a title bout.

Tremaine Knocked Out Foree. Carl Tremaine, Cleveland bantamweight, tonight knocked out Harold Foree of Jersey City in the third round of their scheduled 5 round bout in Madison Square Garden.

In another preliminary, Dave Rosenberg, New York, middleweight, was given the judges' decision after eight rounds with Angie Ratner, also of New York.

The bouts held under the auspices of the American Legion were for the benefit of disabled soldiers.

reached, 4 to 6 1-4 cents net higher, with May 1-4 to 1-4 1-2 and July 1-2 1-4 to 1-4 1-2. In provisions, the outcome varied from 5 cents decline to 17 advance.

Rising wheat prices were accompanied by reports that Germany had bought 5,000,000 bushels of Argentine and Canadian wheat and that British interests had taken 500,000 bushels of Canadian. Meanwhile, Holland was said to be after United States wheat at Gulf of Mexico ports with Japan buying on the Pacific coast. Advances were at hand also telling of continued drought conditions in Kansas and Oklahoma threatening to curtail further the early supplies from the 1922 domestic crop. In addition to recent reductions of about 100,000 bushels in the estimated surplus of Canada, Australia and Argentina as compared with previous generally accepted figures.

At no time during today's session were stocks in prices more than of ordinary profit-taking character. May delivery here showed more strength than the July and was particularly affected by an advance in the Liverpool market. Another reason for the apparent special buoyancy of the May delivery was gossip that a leading elevator interest was acquiring all available cash wheat here.

Corn as well as wheat broke the present season's high price record. Announcement of an increase of 2,152,000 bushels in the visible supply of corn was offset by continued active demand from the seaboard. Oats were held down by liberal receipts, and rather heavy selling. Provisions rose with hogs and grain. Besides, exports of lard were considerably in excess of last year's figures.

CHICAGO GRAIN MARKET.
Chicago, Feb. 20.—Wheat advanced in wheat prices today failed to encounter any aggressive opposition. Scarcity of offerings emphasized talk of possible world shortage of breadstuffs supplies, and let the market ascend as much as 6 1-4 cents going far above any quotations current heretofore this season. The close was strong at the topmost point.

Most every club in the state has the fastest men in Connecticut in a long time, as both boys are willing mixers and each is possessed with a well-known wallop. Both managers of these two boys claim that this bout will not go the limit. Scott the Montclair, Hutchinson's manager, points to the fact that it was with ease that Hughie knocked out Sammy Waltz in Hartford on his last Connecticut bout, and says that he has won fourteen consecutive victories over the knockout route.

On the other hand, Dennis McMahon, Kaplan's manager, has just returned from Lynn, where Kaplan knocked out Dick Russell, the hard-hitting Boston scrapper, after having accepted this bout on a few hours' notice. He states that the "Kid" is hitting harder than ever before the end of the two rounds.

THE BUILDING SITUATION IN NORWICH

Locally the building situation is practically the same as last week and everything is more or less inactive in the building line in and about Norwich. The weather conditions during the latter part of the week were a draw back to the prospects that were once so bright. Not only is this condition true of Norwich but it is practically the same all over the state. However, builders are hopeful of a boom in the building line next year and the Commercial Record articles an optimistic note in the following comment on the building situation:

"The building situation has been a very one, not only because a great industry has been crippled but because the housing shortage was brought to an acute stage through the falling off in construction and rents were forced upward, greatly increasing the cost of living. Rents are still up and they may not break a great deal for some months yet, for houses are not built over night. But building materials have dropped sharply—some of them as much as fifty per cent—building labor has come down and the building field is once more made attractive to the man who wants 'to build to rent' and who knows that he must rent at rates commensurate with the lower wage scales of the present. A building boom is practically inevitable this year. It will employ thousands at fair wages
